## **THE POWER OF KADDISH**

There was a woman who was married to a very wealthy man. She decided that she wanted to do something for Klal Yisrael, but something unique. So she thought to herself what happens to people who died and do not have children to say Kaddish for them? She decided she will hire people to say Kaddish for these people. When her husband died, unfortunately the money went with him, and she was left with nothing. One day she was walking on the road very depressed and she met a man and he saw that she was depressed and told her that he is wealthy and he can give her money to pay all her debts and she can pay him back when she can. You have to bring witnesses that I signed the check. Surprised, she went to the Yeshiva and got a Rabbi and then Yosef Chayim Sonnenfeld to witness the man signing the check.

The next days he goes to the bank and the bank teller sees the high number and tells her that she has to go to the supervisor, after all the people she reaches the president of the bank...she shows him the check and he passes out! When he wakes up he tells her you got this check from this man? So she says yes. He asks her do you know what he looks like? So she tells him yes I saw him yesterday. So the man turns around and points to a picture and says this man is my father and he died last year. So she tells him I even have witnesses. So she brings the witnesses and they tell him that they saw the man sign the check. The man says last night my father came to me in a dream and told me that someone will come to the bank with a check from him and I should sign it, because when he died last year I wasn't religious and I didn't say Kaddish and that woman paid someone to say Kaddish...and for that reason I came back from the dead to pay her back!
